## MINORITY RECRUITMENT AND RETENTION ACTION PLAN

2015 – 2016

Hoover City Schools is committed to hiring and retaining effective teachers that support high student achievement and create a collaborative work environment to meet the needs of all learners. As reflected in our district website, Hoover City Schools is proud of the diversity represented in our student population, and we strive to reflect that diversity in staff to offer a multicultural environment with opportunities for professional and personal growth.

The following actions represent Hoover City Schools' commitment to recruiting and retaining minorities within the district:

1. Establish a targeted campaign with various media outlets, such as news reporters and social media, to solicit minority interest for job vacancies.
2. Recommend and hire minority administrators that exhibit strong leadership and assist in identifying exceptional teacher applicants.
3. Encourage building level and district minority administrators to attend college recruiting fairs to advertise the professional growth opportunities and benefits provided to employees.
4. Build partnerships with Historically Black Colleges & Universities (HBCUs) throughout the southeast for minority candidates as well as promoting student internships from these colleges/universities.
5. Deliver training with administrators on how to identify minority candidates through the online application system, *Teach in Alabama*, as well as searching for minority candidates through *Teach for America*.
6. Identify minority advocacy contacts at area colleges and universities.
7. Identify and target successful minority teachers, administrators, and support staff from other school systems in the area. Meet with current or former administrative staff in predominantly minority districts that may recommend candidates that are seeking employment to avoid predicted lay-offs (Midfield City Schools – September 30, 2015).
